

DECLARATION B

I am registering someone else as a volunteer

1. I have lasting power of attorney formally in place for the registered person on health and welfare grounds, and it is my opinion that registration is in their best interests. (If I do not have this, I understand the registered person needs to sign the form themselves or provide contact details so that helpline staff can speak to them to confirm their wish to be registered.)
2. I confirm that I have read and understand the information within this form and can access a copy of the Volunteer Information Sheet on the Join Dementia Research website or via the charity helplines.
3. I understand that registration is voluntary, and that my details and the personal details of the registered person will be stored securely.
4. Only approved researchers, NHS staff, staff working at partner organisations or agencies working on behalf of Join Dementia Research can look at the registered person's information on Join Dementia Research. I give permission to these individuals to view the registered person's information and use this information for the purposes of delivering Join Dementia Research.
5. I understand that only approved researchers and NHS staff will be allowed to access the registered person's medical records held by their hospital consultant and/or GP. I give permission for these individuals to look at the registered person's medical records to help check their suitability for research studies.
6. I understand that the volunteer can withdraw at any time, or I can do so on their behalf, without giving any reason. If the registered person withdraws from Join Dementia Research then their medical care will not be affected.
7. I understand that if the registered person withdraws, or after their death, then all their personal identifiable information, and mine as their representative, will be removed from Join Dementia Research.
